PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 4+ years of experience in delivering cloud-native applications. Proven track record of reducing infrastructure costs by 50% through AWS cloud migration and automating critical workflows using serverless technologies. Expert in Java, React, and AWS with demonstrated ability to lead technical initiatives from conception to deployment. Recognized for rapid technology adoption, collaborative leadership, and delivering scalable solutions in fast-paced environments.

TECHNICAL SKILLS

Languages & Frameworks: Java, Node.js, React, Next.js, Spring Boot, Spring Security, Maven, Python

Cloud & DevOps: AWS (EC2, Lambda, S3, CloudWatch, EKS, ECR, Batch, Step Functions, EventBridge, IAM), Docker, PCF, GitHub Actions

Databases & Tools: Oracle RDS DB, SQL, Git, Postman, Agile/Scrum

AI Tools: GitHub Copilot, Kiro

PROFESSIONAL EXPERIENCE

Custom Software Engineering Analyst

Accenture Solutions Private Ltd. | 2024 – Present

- Architected and executed cloud migration strategy for enterprise application, leading cross-functional team to transition from on-premise infrastructure to AWS Cloud and PCF, achieving 50% reduction in infrastructure costs while improving system scalability and reliability
- Designed serverless automation workflow using AWS Step Functions, EventBridge, and Lambda, eliminating manual processes and reducing operational overhead by automating critical business tasks
- Engineered containerized deployment pipeline using Docker and AWS ECR/Fargate, establishing CI/CD best practices that improved deployment frequency and application availability
- Developed responsive frontend solutions using React and Angular, selecting optimal technology stack based on project requirements to enhance user experience and satisfaction
- Led proof-of-concept initiatives to evaluate AWS services and other areas as required, providing technical recommendations that informed strategic platform decisions and adoption roadmaps
- Evaluated and integrated AI-powered development tools into team workflows, measuring productivity gains and establishing best practices that improved code quality and reduced development time

Application Development Associate

Accenture Solutions Private Ltd. | 2021 – 2024

- Built and deployed production-grade microservices using Java Spring Boot ecosystem (Maven, Spring Security, REST APIs), implementing best practices for scalable and maintainable application architecture
- Integrated applications with AWS services (CloudWatch, S3, DynamoDB, IAM, EC2) to optimize performance, reduce costs, and enhance monitoring capabilities across distributed systems
- Collaborated in Agile/Scrum teams to deliver iterative product releases, participating in sprint planning, daily standups, and retrospectives to ensure timely delivery of high-quality software

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Jyothi Engineering College, Thrissur | 2017 – 2021

CERTIFICATIONS

AWS Certified Developer – Associate | Expertise in designing, developing, deploying, and maintaining cloud-based solutions using AWS services

AWARDS & RECOGNITION

- Skill Star of the Month – Recognized for exceptional ability to rapidly learn and apply emerging technologies
- ACE Award – Honored for demonstrating agility and resilience in prioritizing and executing critical business initiatives
- Leadership Recognition – Commended by technical leads for outstanding teamwork, rapid technology adaptation, efficient problem-solving, and leadership qualities
